Programming Group: Visual Basic Autodesk Exchange Official Application Programming Group:.NET  
Category:AutoCAD Category:Computer programmingThis invention relates to a kind of golf ball suitable  
to the woods and the like, in particular to a golf ball improved in its rebound and shot feel, of low spin rate  
and the like. The golf ball improved in its rebound and shot feel has been known in the past. For instance,  
JP-A 2002-106203 discloses a golf ball characterized in that its hardness distribution on the surface is  
formed of a hard area (hard surface layer) and a soft area (soft surface layer) and wherein its Shore D  
hardness at its surface is adjusted to from 55 to 80. JP-A 2004-217469 discloses a golf ball characterized  
in that its hardness distribution on the surface is formed of a hard area (hard surface layer) and a soft area  
(soft surface layer) and wherein its rebound characteristic and spin characteristic are improved. JP-A  
2003-296914 discloses a golf ball characterized in that its hardness distribution on the surface is formed of  
a hard area (hard surface a1d647c40b
