. When i have downloaded the file i have done this batch file Wusik.CMD file using notepad: @echo off Start Á .setup.exe net start C:\StCore%.exe exit This way i have runed the batch file and now i have this message: "The program can't start because of the following error: ""it was not possible to start the program because a required file is missing or is damaged." Windows is searching for it in: C:\Program Files (x86)\Steinberg\HALion\h2o\ C:\Program Files (x86)\Steinberg\HALion\ C:\Program Files (x86)\Steinberg\HALion\h2o\ The number of components in the batch file is 17 as: @echo off Start Á .setup.exe Exit @echo off Start Á .setup.exe Exit Could you please help me how can i open that batch file. A: It looks like your batch file is for Windows 32 bit, but your setup.exe file is for Windows 64 bit. The download for 64 bit is here. Looking at the instructions provided, you need to run the batch file and then run the installer provided. The error message you are receiving: "The program can't start because of the following error: ""it was not possible to start the program because a required file is missing or is damaged." Windows is searching for it in: C:\Program Files (x86)\Steinberg\HALion\h2o\ C:\Program Files (x86)\Steinberg\HALion\ C:\Program Files (x86)\Steinberg\HALion\h2o\ means that your setup.exe file is not there, and you need to run the batch file to copy that file to the same location as the setup.exe The prevalence of psychiatric disorders in late life in the country of Georgia: the elderly are a vulnerable population. Lifespan prevalence of psychiatric disorders in Georgia (USSR) was studied. Prevalence of DSM-III-R psychiatric disorders was estimated using the general health questionnaire (GHQ-12) in the total random sample (N=4,047) of the
