## What's New In MixLyrics?

Get lyrics with just a click of a button. MixLyrics (application) supports all modern browsers, like Firefox, Safari, Chrome, Edge, Internet Explorer, Microsoft Edge and Opera. You don't need to go to a third-party site to search for lyrics; just browse your Spotify library. The free version of MixLyrics is limited to the displaying of the lyrics for 25 songs. It is important to stress that MixLyrics is a separate application from MusixMatch and cannot be downloaded together with MusixMatch. Instead, the two applications have their own download websites: musixmatch.com (for MixLyrics) and www.musixmatch.com (for MusixMatch). MixLyrics (application) is available as a free software for Windows, macOS, iOS, Android and Linux. Reviews: Version 1.3.1 - 1/19/2019 If you just update this application then it would be best if you update its english version too. Though the english version is not completely compatible with the version of VLC and cannot play some kind of videos. MixLyrics (application) - By catalena (Lebanon) - 3/1/2017 It does not work any more (in v1.2.2) when you search for a song that contains "monsters" in the title. You are redirected to a page that tells you how to fix the problem, but then it doesn't work. My suggestions: 1. Try to find the search query that worked before the update. 2. Fix the search query to include more words instead of deleting some. 3. Try to search for the song in your library or ask the author to fix the search query. MixLyrics (application) - By Petros (Kosovo) - 9/13/2016 The recommended way to get lyrics on android is a couple of years old now, (and still the best, in my opinion). But I use it sometimes for the sake of comparison with MixLyrics, and I just want to share a tip: If you want to search lyrics when you're connected to wi-fi, you might want to check out MixNet. 1. Go to the settings of your Music Player and choose the option "Use free wi-fi" instead of "Use mobile data". 2. Find the song you want to search lyrics on. 3. Click on "Lyrics" in the drop-down list. 4. Wait for the lyrics to come up. Do you want to change a song in a certain playlist to something that doesn't already exist? If you use Spotify, MixLyrics does
