Before the Hippocratic canon and chirurgia magistra, surgeons and their surgical literature were marginalized. The average surgeon was a country-side physician, not a medical luminary, and the newly invented operation was just a part of a variety of less sophisticated medical treatment that served local needs. But there was an inevitable progress toward the status of a genuine medical practitioner. In the first centuries after Christ, the trade of surgery began to grow 09e8f5149f
